

TRAINING CAPABILITIES

At Capital Edge Consulting, we are committed to helping contractors and grant recipients work with the Federal government in an effective and compliant manner. Our consultants combine their unique backgrounds and experiences in consulting, public accounting, industry, DCAA and DCMA to provide unmatched government contracting expertise.

Our breadth of specialized experience enables us to provide the exact services and level of expertise you need to succeed. We have worked with government contractors ranging in size from startup to Fortune 100 companies in a wide range of industries including professional services, manufacturing, nuclear energy, healthcare and biotech, defense and homeland security, information technology, and software. These companies work with a vast array of federal agencies.
